

Product Datasheet

SCH1000

Main

Family	Repartition supports
Version	Cold bendable protection screen
Code	SCH1000
Reference	SCH 1000x2000x3
Number per package	1
Weight (kg)	7.00
H (mm)	1000
L (mm)	2000
S (mm)	3

Technical Features

Made in PETG (polyethylene terephthalate), transparent color

Dielectric Strength: 16 kV/mm

Halogen free

Self-extinguishing: UL 94-HB

Minimum bending radius: 1 mm at 90°

Maximum working temperature: 65 °C

WARNING: It is forbidden to cut the SCH1000 product by means of a laser beam, because PETG produces hazardous gasses when laser is used.

Please contact Teknomega for non-specified tolerances.
